

ADULT WORK PLACEMENT PROGRAM

Antz Junction is a remarkable Greater Manchester organisation that works with the most marginalised people. Antz enables people to get back into work while giving back into their own community.

A unique partnership between Openreach and Antz Junction to run an operational employment programme which, if completed**, will deliver skills, confidence, a current reference and certificate from Openreach.

Throughout the placement you will work alongside staff from all levels. Your placement will be in a 'real' operational role with a mentor and buddy.

Placements

- Customer Service Engineering with Openreach: daily contact with residential and business customers, working in diverse environments, including outside. You will learn some practical skills and help the engineer with task such as installing new services, broadband boost, diagnosing and fixing faults and have opportunities to practice and improve your customer relationship skills.
- The placements involve early starts – just before 8am each day, and you may need to travel to your pick up point.

Essential Qualities

- Enthusiasm to learn and participate
- Flexible outlook
- Physically fit
- Good colour recognition

****Successful completion means excellent punctuality, attendance and willingness to participate**

For further information please contact Dan Rowley at Workready@antzjunction.com or by telephone on 0161 728 6868, quoting BT.

- Housing Association tenants should enquire and book via Dan Rowley.
- DWP members should enquire and book via their DWP office, to allow information to be provided by Dan Rowley.
- A current CV would be useful.
- Closing date for receipt of applicants Wednesday 8th October.
- We will then contact applicants about the next step.
